ABOUT DR. SEAN

Known as "the doctor's doctor," Dr. Sean McCaffrey is a leading authority on health and wellness and an advocate for changing people's lives through common sense healthcare. As a digestive health specialist with a post-doctoral license in internal health, Dr. McCaffrey was among the first physicians in the US to be certified as an Internal Health Specialist.

Dr. McCaffrey helps his patients restore normal body function through an integrated system of healthcare that reclaims lives through mechanical alignment, emotional balance and proper nutrition/digestion. His holistic approach to long-term, restorative health care comes as a result of having studied the best modern modalities, as well as seeking out the most highly-guarded treatment secrets learned from old masters and perfected over the centuries.

“What he said made a lot of sense. The others I went to just couldn't seem to pinpoint the problem, but Dr. Sean has helped me a lot. Within a two week time period, 90% of that severe pain was just gone. He alleviated the discomfort and eliminated the daily lower back pain I was experiencing. It's been a big accomplishment. He changed my lifestyle, and now I am able to go about my day pain-free.

“I discovered Dr. Sean several years ago and I don't know where I would be without him. I have learned SOOOO very much from him on how the body works, reacts, etc. His body of knowledge is so far beyond most doctors and takes into consideration the whole person, not just the physical aspect. I recommend them to everyone!”

“A friend of ours had great success with the McCaffrey Metabolic Weight Loss program, losing almost 50 pounds.... We made an appointment, and the staff was amazing. Dr. Sean was great with her, explaining the program and how she could regain control of her health.”
